

EXTRA

ALL ROUSED.

Lineman Feeks's Sacrifice Starts
a Mighty Electric Wire
Crusade.

Mayor Grant and the Electrical Board
Order the Wires Down To-Day.

Meanwhile the Companies Get an
Injunction from Judge
Andrews.

Coroner Schultze Makes the Autopsy
on the Dead Lineman.

Mayor Grant Says He May Take
the Case to the Grand Jury
Himself.

Companies Ordered to Shut Off All
Electric Currents This Afternoon.

Mayor Grant, the members of the Board of
Electrical Control, the Coroner, the officials of
the District Attorney's office were all roundly
aroused to-day by the horrible death of
Lineman Feeks and to the lesson which it
teaches as to the peril impending over the city
by the overhead electric wires.

On all hands it was said that this latest
tragedy would have the effect of starting a final
and successful crusade against the deadly wires.
Intense indignation was felt throughout the
city over the occurrence, all the more because
at this very time the electric lighting companies
are defying Mayor Grant in his efforts to secure
greater safety for the public, and are running
miles and miles of improperly insulated wire
every night, in direct disobedience to the orders
which he has issued.

The companies deny this morning that it was
an electric light wire which caused Feeks's
death yesterday, but there is only one
opinion among experts, and that is that the
powerful current which was transmitted to the
lineman was at work came from an electric-lighting
wire.

It may not have passed directly from either
of the two lighting wires on the pole on which
Feeks was at work yesterday, but it was
produced by contact with a telegraphic wire
at some distance away.

It is stated, however, by the police that
some of the electric light linemen who were out
at work last night discovered the point of con-
tact, but no report was made by the companies.

MAJOR GRANT STIRRED.

Mayor Grant was very deeply stirred this
morning by the accident.

SPECIAL MEETING CALLED.

As soon as he reached his office at the City
Hall, he immediately sent word to the Subway
Commissioners, and Electrical Expert S. S.
Wheeler, that he would like to have a meeting
with them immediately.

THE MAYOR TALKS.

"It is a remarkable circumstance," said the
Mayor, "that on the very day when I was
writing the order to the electric light companies
to discontinue the use of such of their wires as
were not properly insulated, a man should
be killed by one of them. It is a tragedy which
defies all orders and any such shocking
accident should have happened."

"I certainly emphasize the necessity of
taking some immediate action in the premises,
and I do not propose to let the matter rest for
an instant."

"If I have any conception of the facts in this
case, it is self-evident that there were some
wires in those poles which were not properly
insulated. So far as my own opinion is concerned
I don't believe there is any such thing as per-
fect insulation, and that is the reason why I
want to get all the wires away from overhead,
where they are a continual menace to citizens,
as soon as possible."

COMMITTEES MAY BE INDICTED.

"In this case there has been such an example
of negligence to say nothing of the
violation of the orders issued by the Board of
Electrical Control, that I think the officers
of those companies could be indicted for man-
slaughter."

WILL GO TO THE GRAND JURY.

"I certainly propose to investigate the matter
thoroughly, and if my present opinion in the
case is confirmed I shall undoubtedly bring the
question before the Grand Jury myself."

At 11:30 Commissioners Gibbons, Moss and
Hunt came to the Mayor's office with Expert
Wheeler.

EXPERT WHEELER'S REPORT.

A meeting was immediately called, and Mayor
Grant stated that he had a report from Mr.
Wheeler, which was read, as follows:

"The Mayor of the City of New York:
In relation to the wires which were used by the Board of
Electrical Control on the Electric Light companies of
the city, I have to report as follows:

"I stated at the meeting held yesterday I am not
able to give the information that, notwithstanding the notice of the
Board of Electrical Control, the electric light companies
are in violation of the rules and regulations of the
Board."

There is a great deal of evidence to show that
the electric light companies are in violation of the
rules and regulations of the Board, and that they
are in violation of the rules and regulations of the
Board."

I was unable to state definitely with regard to
other wires of these and other companies whether

they were in violation of the rules and regulations of the
Board."

It would be wise to increase
your orders for the SUNDAY WORLD
AT ONCE, as there will be an
unusual demand for this issue.

To Newsdealers.

To Readers.

You should order next Sunday's
WORLD AT ONCE, or your news-
dealer may not be able to supply
you.

such as are improperly insulated, have been operated
or not, not having had time to make an inspection.

SCHULTZE, WHEELER, Electrical Expert.

THE MAYOR WAS PROMPT.

"I shall now make an order," said Mayor
Grant, "upon this report that all wires operated
by electric light companies that are reported to be
improperly insulated shall be immediately
cut, and shall ask the Board to pass a resolution
to that effect."

UNANIMOUSLY INFORMED.

"The Board will unanimously approve such a
resolution," said Commissioner Moss, and it
was thereupon voted.

"CUT DOWN THE WIRES."

Commissioner of Public Works Gilroy, who
was present, was asked by Mayor Grant if he
could proceed at once to cut down the wires which
Expert Wheeler had reported to be improperly
insulated.

"I will do so," said the Commissioner, "and
I will have the Board of Electrical Control
informed of the action taken."

THE VERY AFTERNOON.

He replied that he could, and Mayor Grant
gave him a verbal order to go ahead this after-
noon, adding that the Board would pass the
resolution authorizing him to commence at once.

"How shall I ascertain what wires to cut?"

"Mr. Wheeler will go immediately to your
office with you and will there inform you what
wires he has examined and found unsafe."

"This order," added the Mayor, "is, you
understand, not to apply to any particular com-
pany, but to all alike, and without any favor-
itism."

A Mr. Wheeler's suggestion an additional
order was directed to be issued to the com-
panies directing them to turn off all the cur-
rents in their wires which were found to be
unsafe, in order that there should be no
danger to the workmen engaged in taking
them down.

FURTHER ACTION ON MONDAY.

Before the meeting adjourned the Mayor asked
and obtained from the Board a resolution re-
questing the Engineer of the Board to prepare
plans for a comprehensive system of survey of
an extent covering as much of the city as pos-
sible, which should be presented to the Board at
its next meeting, which will be held there on
Monday next.

The meeting then adjourned and Commis-
sioner Gilroy started over to his office to carry
out as soon as possible the orders of the Mayor.

THEN CAME THE INJUNCTION.

He only got as far as the rear entrance of the
City Hall when he was met by Mr. Wheeler,
well, of the firm of Evans, Choate & Beaman,
who had two injunctions in his hand, which he
had just secured from Judge Andrews of the
Supreme Court, in behalf of the Brush and
United States Electric Light Companies.

He served them on Commissioner Gilroy on
the spot, and the latter turned around and went
back to the Mayor's office, where the lawyer
also gave notice to Mayor Grant of the injunc-
tions.

They were very comprehensive, and restrained
the Mayor, Commissioner of Public Works and
the Board of Electrical Control from interfer-
ing in any way with the wires of the two com-
panies until next Monday, when the injunctions
are returnable before Judge Andrews in the Su-
preme Court, Chambers.

MAJOR GRANT ANNOYED.

The Mayor looked annoyed, and turned the
pages of the City Hall Record, which he was
reading, and who, after examining them, said
that it would be well to observe them.

"I am not at all surprised," said the Mayor,
"that you should find these two companies.
If Expert Wheeler had not found them, they
properly insulated belonging to other companies
this afternoon you can go on and take them
down."

At 1 o'clock notice was sent out from the De-
partment of Public Works to all the electric
light companies in the city ordering them to
shut off the current on all their wires.

The notice was sent to the Brush and United
States Electric Light companies, and to all the
other companies which had not yet secured in-
junctions against the Board of Electrical Control.

Commissioner Gilroy said that if he can find
any more wires, this afternoon he will pull
them down, unless they belong to the companies
which have enjoined him.

ORDERS TO THE COMPANIES.

At 1 o'clock notice was sent out from the De-
partment of Public Works to all the electric
light companies in the city ordering them to
shut off the current on all their wires.

The notice was sent to the Brush and United
States Electric Light companies, and to all the
other companies which had not yet secured in-
junctions against the Board of Electrical Control.
